

Meagan's HOPE Memorial Walk for EDS Awareness & Suicide Prevention

Hosted by the
Braun Family and:
EDS WELLNESS
EDS Wisconsin, Inc.
PREVENTION GENETICS

Born December 12, 1987, Meagan Rae Braun was a kind, caring, loving individual with a most beautiful, gentle soul. But behind her beautiful smile, Meagan suffered with multisystemic illnesses including EDS, hyperadrenergic Postural Orthostatic Tachycardia Syndrome (POTS), allergies and sensitivities, and more. Frustrated with limited treatment options for her health, in addition to battling postpartum depression, Meagan lost all hope resulting in her death from suicide on April 24th, 2017. The Walk is being held in honor of Meagan's gracious spirit to raise money and awareness surrounding EDS and related disorders to develop support and resources for patients and medical professionals.

The Mission of EDS Wisconsin, Inc is to provide support and resources to Wisconsin patients and medical professionals about Ehlers-Danlos Syndromes and related conditions via education and research.

Our Vision is a better Wisconsin where EDS and related conditions are better understood, treated and supported.

Please join us!
